

School meeting

Thursday October 27th, 2022 – 13:00
Room 1L – CLA – Via Venezia, 16

Prof. George Mather

University of Lincoln

Visual aesthetics and nature

There is evidence to support the 'matching-to-nature' hypothesis in visual art: Paintings show regularization to the statistics of natural scenes.

However, there is no convincing evidence for a single universal aesthetic statistic that applies to all genres and viewers.
